2025 Parent Payment Arrangements – Year 11

Dear Parent / Guardian

Heathmont College is looking forward to another great year of teaching and learning and would like to advise you of Heathmont College's voluntary financial contributions for 2025.

We strive to offer a challenging and innovative curriculum that nurtures the academic potential and personal growth of each child. We are committed to fostering student engagement, wellbeing, and a diverse range of programs for all year levels.

Parent voluntary contributions play a crucial role in supplementing government funding and supporting our extended learning programs, specialist staff, equipment, and facility improvements. They directly impact curriculum programs, technology maintenance, and grounds enhancements, which are critical to maintaining and enhancing the colleges' high standards and meeting the needs of our diverse student body. To ensure transparency, parent contributions are broken down into different components, each serving a specific purpose:

- The curriculum component supports our participation in School Sport Victoria competitions, enhances our Visual and Performing Arts programs, and enables the delivery of specialised programs such as the Year 9 Life Program and the elective programs for Years 9 and 10. Additionally, it supports senior students through career counselling, pathways guidance, tutoring, mentoring, and guest speaker presentations
- The Computer Technical Support contribution ensures the employment of dedicated technology support staff who manage our servers, wireless networks, website, information and communication technology facilities (including the Compass learning management system), and the provision and maintenance of nearly 700 notebooks, tablets, and other devices for students and staff
- The grounds maintenance and improvement contribution has enabled us to undertake significant landscaping projects and replace old seating with modern and aesthetically pleasing alternatives, enhancing the overall safety and appearance of our College.

It is important to stress that the viability of our innovative programs in 2025 relies on your support through voluntary parent contributions. We understand the financial challenges faced by families, and we want to assure you that all contributions are valued and go directly toward student programs, specialist staff, and facilities that benefit everyone. Please know that the suggested contribution amounts can be easily adjusted through Compass. By working together and contributing what we can, we create a powerful collective impact.

If you have any concerns or questions about payment, our Principal and Business Manager are available for further discussion. On behalf of the College Council, we extend our sincere thanks for your continued support, which plays a vital role in shaping the education and opportunities we provide to our students. Please see the attached Parent Payment guidelines and policy for full and further details. We deeply appreciate the ongoing support of our families, whether through financial contributions or fundraising efforts. Your collective contributions make a significant difference to our school and the enriching programs we offer.

Your sincerely

Kerry Sandford

2022 School Payments

Dear Parents and Carers,

High School is proud to offer a range of exemplary curricular and co-curricular programs to students across the school. While the Victorian Government supplies most of the school's funding, this is not sufficient to meet all the costs of the school's programs. All schools are dependent on locally raised funds to supplement government funding for curriculum programs, school services and resources. Locally raised funds in the form of parent contributions are essential for the operation of the school's extended learning program, specialist staff and the provision of additional equipment.

Parent Payment Policy

The Department of Education and Training (DET) Parent Payment Policy provides advice on the different types of payments that schools may request from parents and outlines the procedures and protocols to which schools must adhere. The High School Council is responsible for developing and approving a school-level parent payment arrangement that is compliant with the Department's policy. The DET policy is available here <https://www2.education.vic.gov.au/pal/parent-payment/policy> or a hard copy is available on request from the general office.

Financial help arrangements

High School offers a range of supports to families who are experiencing financial hardship and are unable to make the parent payment. The DET also provides a range of supports to families that will complement the school supports. The school-based arrangements could include establishing payment installment plans and providing access to school resources. The DET arrangements include access to a range of government funded support programs including the State School's Relief Fund, the Camps, Sports and Excursions Fund (CSEF) as well as a range of student scholarships. Families should contact the school via or 1092 7300 to enquire about these supports.

The High School Council wishes to ensure that increases in parent payment contributions are minimised. However, it cannot be too strongly stressed that the viability of many of our innovative programs is dependent on your support via the payment of the voluntary parent contribution. Payment of the parent contribution is preferred at the time of course confirmation and payment of the school fees.
